## School Overview

Builyan is located 97kms southwest of Gladstone. It is a small rural community with most families working on the land. The local sawmill also employs a percentage of the population. Builyan has a very active Parents and Citizens Association and Community Development group. The whole community works together to ensure the school provides a stimulating and up to date learning environment. Builyan State School is committed to the provision of high quality education that makes a positive difference to the lives of all our students. We equip young people for the future to enable them to contribute to a socially, economically and culturally vibrant society. Maintaining strong links with the community is a key priority. Community members may access school facilities and are kept up to date with school events through regular newsletters. Parents are kept informed of student progress, both on a formal and informal basis, through twice-yearly report cards and associated parent interviews, as well as end of term celebrations of student work and achievements, and regular publication of student work in the school newsletter

## Characteristics of the Student Body

### Overview

The students work in a multi-age setting. Builyan State School has no indigenous students. Although a small school, the students are given opportunities to mix with students their own age from Ubobo and Nagoorin State Schools to engage in cluster sporting, cultural and academic activities. These activities are valued as they widen the students experience and develop friendships with other students living in the Boyne Valley area.

### Average Class Sizes

The following table shows the average class size information for each phase of schooling.

AVERAGE CLASS SIZES			
Phase	2014	2015*	2016
Prep – Year 3	12	11	12

\*From 2015, data for all state high schools include Year 7 students. Prior to 2015, only state high schools offering Year 7 had these students included in their counts.

## Curriculum Delivery

### Our Approach to Curriculum Delivery

- The Australian Curriculum along with the implementation of the C2C provides the framework for educating our students to build on their prior knowledge and maximise learning experiences.
- Students engage in learning through the explicit instruction pedagogy in all learning areas.

## Co-curricular Activities

Cluster Days with Ubobo and Nagoorin State Schools  
Sporting Schools Afterschool Sport  
Regular P and C monthly meetings  
Fundraising events through the P and C  
Tuckshop run by P and C, fortnightly

## How Information and Communication Technologies are used to Assist Learning

Technology is used throughout the curriculum, enhancing a variety of skills. They use the internet for research and learning opportunities, they use different programs to write different types of reports. Purchasing of new computers and Interactive whiteboard has stimulated learning for the students as they have not experienced these opportunities before. With Principal/Teacher having been very experienced using ICTs in the classroom, the students have really benefitted from having someone who places a high importance on ICTs in the classroom.

## Social Climate

### Overview

At Buillyan State School we believe that everyone has right to learn in a safe environment. We must expect the rights of others if we wish to have our rights respected. We also believe that students, teachers and parents alike, choose the way they behave, so each individual must accept the responsibility and consequences for their behaviour and bullying is not tolerated.

As a small school, the older students can have a great influence upon the younger students. The older students are given responsibility, acting both as leaders and supporters for the younger students.

\* Nationally agreed student and parent/caregiver items

# 'Agree' represents the percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement.

DW = Data withheld to ensure confidentiality.

## Parent and community engagement

Parents volunteer their time three days a week to work with small groups of students on reading. Parents are involved and informed of their child's education in various ways. Parent teacher interviews are held twice a year, in which all parents are informed of their child's progress. In Semester 1 and 2, report cards are sent home about their child's progress as well. Through newsletters, parades and parent chats before and after school, parents are also informed of what is happening around the school and how to help their child with aspects of their school work.

## Respectful relationships programs

The school has developed and implemented a program or programs that focus on appropriate, respectful and healthy relationships.

## School Disciplinary Absences

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

SCHOOL DISCIPLINARY ABSENCES			
Type	2014*	2015**	2016
Short Suspensions – 1 to 5 days	3	0	1
Long Suspensions – 6 to 20 days	0	0	0
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

\* Caution should be used when comparing post 2013 SDA data as amendments to EGPA disciplinary provisions and changes in methodology created time series breaks in 2014 and 2015.

\*\*From 2015, Exclusion represents principal decisions to exclude rather than recommendations for exclusion. From 2015 where a principal decided not to exclude, a small number of recommendations for exclusions have been counted as a long suspension. Exclusions, Cancellations and Long & Charge Suspensions may be upheld or set aside through an appeals process.

## Environmental Footprint

### Reducing the school's environmental footprint

The school has had solar panels installed to help reduce its environmental footprint.

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2013-2014	7,122	0
2014-2015	5,379	
2015-2016	10,593	

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

Non-attendance is managed in state schools in line with the DET procedures, *Managing Student Absences and Enforcing Enrolment and Attendance at State Schools* and *Roll Marking in State Schools*, which outline processes for managing and recording student attendance and absenteeism.

In 2016, parents were continually reminded about the importance of attendance through newsletters, phone calls, parent teacher interviews and parades. An 'Every Day Counts' newsletter was included in newsletters twice a Semester. Rolls are marked twice a day and parents are contacted via phone straight away if their child is absent and the school has not been notified.
